

# Daniel MacKinlay

Machine Learning Researcher

<https://danmackinlay.name>

🏠 Location: Coburg Victoria 3058

✉ Email: dan@danmackinlay.name

☎ Tel: +61 412 671 082

## PROFILE

Experienced, dynamic researcher with demonstrated ability to generate impact through applying capabilities in computer and data sciences to solve previously impossible problems and make a difference in the world across diverse domain areas and methodologies. Utilises innovation skills to develop novel methods for analysing and predicting the behaviour of complex physical systems. Recognised for thinking outside of the box, I leverage my PhD in Mathematics and Statistics from UNSW, and my Masters in statistics from ETH Zürich to bring new ways of problem solving and to research, education and impact delivery.

## Employment Highlights

CSIRO

Aug 2020 to present

### Research Scientist

- Published papers in NeurIPS 2022 on benchmarking neural operator methods for solving partial differential equations using machine learning surrogates

### Early Research Career Fellow

- Advanced the frontiers of research through my contribution to the Machine Learning and Artificial Intelligence Future Science Program hosted in CSIRO's Data61 by developing an advanced method for analysing and predicting the behaviour of complex physical systems utilising Bayesian analysis and Deep Learning.
- Developed well-researched and accurate conference papers for publication on methods and developed innovative methods through benchmarking datasets and developing open source code.

## Publications

## Education

### Qualifications & Education:

- |             |  |
|-------------|--|
| 2016 - 2020 | PhD in School of Mathematics and Statistics, UNSW  |
| 2012 - 2015 | MSc Statistics, Eidgenössische Technische Hochschule Zürich, under the Chair of Entrepreneurial Risks. |
| 2006 - 2007 | Honours Thesis (First Class) on Economic/Ecological Models of Fishery Dynamics, ANU                    |
| 1999 - 2004 | Bachelor of Science (Applied Mathematics), Australian National University                              |
| 1999 - 2005 | Bachelor of Arts (Major in Human Ecology, Minor in Linguistics), Australian National University        |

## Referees

Please enquire for details.
